

Environmental Review Commission

November 15, 2006

**Recommendations by
NC Coastal Federation,
NC Sierra Club and
Conservation Council of NC**

1. Make SEPA applicable to all landfills over 1000 tons per day because they have a regional impact.
2. Establish permit fees for solid waste permitting.
3. Enact a statewide tipping fee comparable to what other states charge.
4. Add additional siting restrictions.

5. Make existing bans on certain materials enforceable by hiring and training new DENR enforcement staff to ensure that facilities are complying with the bans.
6. Ban electronics waste.
7. Ban single entity Limited Liability Corporations (LLC's) from owning landfills of any size or function.
